Sale of Goods and Services Rules

6465.01

The School District may sell instructional supplies or materials and school club or activity promotional materials to students subject to the following procedures and guidelines:

1. The instructional program warrants the sale of the supplies or materials.
2. The price of the item or materials is economically advantageous for the student.
3. A list of instructional supplies that are being sold by the school shall be on file with district administrator.
4. School personnel, as school employees or private individuals, shall not sell supplies or materials to students.
5. No particular source or brand of school supplies or material shall be designated to students under any circumstances.
6. The district administrator shall be responsible for accounting for these funds and any proceeds shall be used for student purposes.
